

Type_parameter_pfof

```
classDiagram
    class Type_parameter_pfof
    class modconstant_type_parameter_pfof_snap["modconstant::type_parameter_pfof_snap"]
    modconstant_type_parameter_pfof_snap --|> Type_parameter_pfof
```

The diagram illustrates a class hierarchy. At the top is the base class 'Type_parameter_pfof', represented by a rectangle with three horizontal compartments. The top compartment contains the class name, while the others are empty. Below it is the derived class 'modconstant::type_parameter_pfof_snap', shown as a rectangle with three sections. The top section is a dark gray header containing the class name. The middle section is a light gray body containing a list of attributes, each preceded by a '+' sign. The bottom section is a dark gray footer. A blue line with an open triangle arrowhead points from the top of the derived class to the bottom of the base class, indicating inheritance.
