

modio::readparameters

```
graph LR; A[modio::readparameters] --> B["modreadparameters::  
read_pfof_cone_parameters"]
```

The diagram illustrates a function call. On the left, a gray rectangular box contains the text 'modio::readparameters'. A dark blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains two lines of text: 'modreadparameters::' on the top line and 'read\_pfof\_cone\_parameters' on the bottom line.

modreadparameters::  
read\_pfof\_cone\_parameters
